New York, July 12.—[By the Associated Press.] Cyrus W. Field died at 9:30 this morning.

Field was attacked early this morning by a violent spell of delirium. His physician was summoned and administered an anodyne to induce sleep. HOMESTEAD (Pa.,) July 12.—[By the Associated Press.] The night passed quietly at Homestead. The whole city was in holiday attire this morning in anticipation of the militia. It was ex pected the troops would arrive by day break and the people turned out in anticipation of that event, ready to welcome the blue-coated representatives of the State with a procession of brass bands, school children and flowers, but the situation became somewhat ludicrous as the hours passed and the militia did not appear. The bands did their best to keep up the spirits of the multitude but with indifferent success. It was after 9 o'clock when the cry went up that the troops were coming. They arrived by train from their ren-dezvous at Greenburg and consisted of the Second and Third brigades, num bering 3000 men under the command of Gen. Snowden. together with two Gatling guns and three field pieces. Their sudden arrival in the ab-

Their sudden arrival in the ab-sence of the leaders of the strikers disconcerted the programme for the reception, and the sol-diery evidently did not desire such treatment from the men whom they were sent there to keep in order. They

were sent there to keep in order. They were received with perfect respect, and here and there an attempt at a cheer was set up by the on-looking populace. The troops descended from the train, formed silently and marched in perfect order to the mills, where they took possession. They deployed their artillery across the Monongahela, opposite the mills, set pickets all about the works, and settled the question of taking possession of the town by marching one company direct to the strikers' headquarters, another to the vicinity of headquarters, another to the vicinity of the depot and a third to a slight emi-nence overlooking and commanding the commercial center of the town. Then Homestead was in the hands of the mil-itary and martial law had succeeded the arbitrary reign of the Advisory Com-mittee.

disappointed that the millita thought it necessary to occupy the whole town, instead of confining themselves to the mills, but give no open evidence of the fact. It was complete acquiescence to the power of the State, and as grace fully as they could the strikers accepted the inevitable. The batteries across the river command the whole town, as well as the Carnegie works, When the militia arrived the strikers'

The leaders told them the troops would not interfere with them in this. Similar instructions were given other watchmen and the whole strike picket was re-formed outside the picker

said for them that they welcomed the troops and offered the cooperation of the citizens in preserving order.

Gen. Snowden said: "I thank you for your welcome, but do not need your cooperation. The only way in which read citizens can cooperate with he is good citizens can cooperate with us is The spokesman said the citizens wished to know at what time they

The rebuff which the strikers met The rebuff which the strikers met when they called on Gen. Snowden has made them very bitter against him. They denounce him in unmeasured terms and now look for a large importation of Pinkertons today or tomorrow, and while the majority are decidedly intimidated by the presence of the troops, some swear they will resist the landing of detectives at any cost. TROOPS FRATERNIZE WITH STRIKERS No rations have been provided for the soldiers, and accordingly they were permitted to go into town and get their meals. The result was that everybody, soldiers and strikers, did a great dea too much drinking. Every saloon was crowded to its fullest capacity. In onsequence more drunken men were to consequence more drunken men were to be seen on the streets than were visi-ble altogether during the past week. Some soldiers loudly declared that they would stack their arms if called upon to protect the Pinkertons or non-union men, and this spirit is by no means con-fined to a few sporadic cases. The talk is common on the streets, and in conse-quence there is a great increase in friend liness between the troops and strikers

It appears that 3000 or 4000 troops are now at Homestead, all that will be ordered directly to the scene of the labor trouble. The remainder of the National Guard will camp at Mt. Gretna and various other points, and from the to time will relief by defrom time to time will relieve by detachments the military now stationed at Homestead. In this way the health of the 8000 troops will be preserved by half the time being spent in the mountain atmosphere, much more salubrious than the air of Homestead. The militia will be no disturbance to peace and the only reason for ordering out the en-tire National Guard is believed to be an intended combine of the annual en-campment with the preservation of the public peace at Homestead. The impression, therefore, is prevalent that the militia are here to stay three or pression, therefore, is prevalent that the militia are here to stay three or four weeks at least and the battle be-tween the strikers and mill owners is now one of endurance. An evident feeling of dejection has taken possesion of the men since the appearance of W. D. Bolton, private of Co. G. Fif-

teenth Regiment, was one of the detail to put the mill pumps to work to supply the camps with water. While working above the furnace in the pump-house a ush of burning natural gas flew into his ace, scorching and burning him se-ionsly, if not dangerously. He was arried to camp and made as comfortale as possible

The story is put in circulation that the Sheriff proposes to arrest Hugh O'Donnell and half a dozen other leaders of the locked-out men. No authority for the rumor is given, and friends of the Sheriff say it is not true. It is also said that early tomorrow morning a movement will be made toward man ning the mill. Mr. Child and Manager Potter had a long conference with the Sheriff this afternoon, but neither of result of the deliberation. It is intimated, however, that a vigorous line of action has been determined upon.

Saloons have done a thriving business all day, many workingmen for the first time since the battle of Wednesday tailed to arrest them, and in a short tailed to arrest them, and in a short time nearly all the militiamen were back in camp. The evening closed more quietly than any one had any right to expect, and while the streets are still full at 10 o'clock—the crowd is drifting homeward. The arrangements for tomorrow contained only one comment. Gen. Snowdon has ordered that a whole duty at a time, and consequently the town will be very thoroughly policed. The strikers believe this order sued in order to cover the Sheriff in th works, but this is mere conjecture.

HOMESTEAD, July 12.—The Congres-

sional Committee afrived in the middle of the excitement over the reception of the troops. As soon as it was known that the party was in the city a delegation from the locked-out men visited them and tendered the hospitalities of the city. The committee had an interest with a second, Raceland third; time 1:12. the city. The committee had an informal talk with O'Donnell, who was specially requested to be present at the investigation in Pittsburgh. Several other strikers were questioned, and in other strikers were questioned, and in a rough way the case of the men, particularly in regard to the battle with the Pinkertons, was blocked out. Child also had an informal talk with the Congressmen, but he pleaded that he had no information to give, and said the officers of the company at Pittsburgh would give every facility to the company at Pittsburgh Innocence second, Everton third; time 1:156.

sition of the Pinkerton barges indicated. The bullet marks still in evi-dence were examined and a good mental knowledge of the engagement secured by each of the inquisitors. The committee then returned to Pittsburgh. PITTSBURGH, JULY 12.—The Congressional Investigating Committee began its inquiry this evening with Frick on the stand. He was the only witness examined tonight. The examination examined tonight. The examination brought out many new features, notably the plans by which the Pinkerton men were employed and the arrangements for their transportation. The wages paid under the sliding scale and the proposed reduction were all brought

Frick was put under severe crossexamination, which proved to be most interesting. He said the company was interesting. He said the company was not a corporation, but was formed under the limited partnership laws of Pennsylvania. He said 3800 men were employed at Homestead. The wages paid were as follows: Rollers, \$250 to \$275 per month; heaters, \$185 to \$190; heaters' helpers, \$130; train men, \$97 to \$120; others, an average of \$80 per month.

After making a statement as to the

causes of the strike Frick was quescauses of the strike Frick was questioned regarding the cost of production. He declined to answer, saying it was not a fair question. He also said after the Sheriff failed to control/the strikers he employed the Pinkertons. Replying to a question, he said he had not appeared to the Geography, as experience. pealed to the Governor, as experience had shown its uselessness.

Cross-examined by Representative Boatner, Frick stated that the arrange-ments for the Pinkertons were made before negotiations commenced with the Amalgamated Association. The fence around the works was built after the negotiations. Frick read a letter to the effect that he had instructed the captain of the Pinkertons under no cir-cumstances to resort to the use of firearms, except to protect their lives.

An adjournment was then taken, Chairman Oates informed Frick that the committee would hold under advise ment his refusal to answer questions relative to the cost of production.

THE CORONER'S INQUEST.

It Brings Out the Fact That the Strikers PITTSBURGH, July 12 .- (By the Associated Press.] Coroner McDowell com-

menced an inquest this afternoon on the eight men killed at Homestead. Cap. A B. Rogers detailed the trip up the river and the battle that followed. Witness said the crowd on the shore opened fire first on Capt. Wishart, the pilot and engineers. Evan and Martin corroborated Rogers. Joseph G. Hoffman, a Pinkerton man

was the last witness called. He related. as did the previous witnesses, the trip to Homestead. As the barges got near the landing they were fired upon. Capt. Hines and his men attempted to ness all day, many workingmen for the first time since the battle of Wednesday drinking heavily. There have been two or three fights, some of them serious, and a great deal of wild talk. When it became evident that the soldiers were drinking patrols were detailed to arrest them, and in a short land witness fell having hean short land witness fell having hear short land witness fell having hear short land witness fell having hear land with having hear land with his land with having hear land with having hear land with his land with having hear land with his land with his land having hear land with his land having hear land having hear land with his land having hear la and witness fell, having been and witness fell, having been shot through the right leg above the knee. He said he did not have a weapon with him when he was shot. The detectives were given to understand that their duty was to guard the company's property, and they were instructed not to fire unless in self-defense

The affidavit of John F. McCurry, who is at the Alfegheny general hospital, was read to the jury and the inquest continued until July 26, at 2 o'clock.

A Case of Heart Disease—The Cable Road Victim.

Coroner Weldon yesterday held an in-quest on the body of the old man who dropped dead on Second street Monday afternoon. The body was identified as that of William A. Lawson, and it was ascertained that he had died of heart disease. Among his papers were found a membership card of the San Diego Longshoremen's Union and also his discharge papers from the United States navy in 1865, the papers showing that he had been an ordinary seaman on the Kati. The Coroner notified the San Nati. The Coroner notified the San Diego Union, but that organization re-fused to make any provision for the burial of the body. There is a law how-ever, by which any honorably dis-charged Union soldier or sailor is proquence, the old man will not have to go vided with decent burial, and in consequence, the old man will not have to go to the Potter's field. A telegram was also received from San Francisco ask-ing for a full description of the deceased. The telegram was merely signed "Mrs. Lawson." It was an-

swered by the Coroner, but up to a late

hour last night no reply had been re

THE CABLE ROAD VICTIM. At 2 o'clock in the afternoon an inquest was held on the body of the old man who was run over and killed by the cable cars while returning from the circus Monday evening. The deceased circus Monday evening. The deceased had been identified as John Bartlett, a native of England, aged 76 years, but who for the past eighteen months has been living on a ranch near Downey. The main facts of the accident were published in Tue Times Tuesday morning. Mr. Bartlett came up from Downey Monday morning to attend the accident was the same and th ng, wr. Bartlett came up from Downey Monday morning to attend the circus. After the performance in the afternoon he took a First-street car to return to the city. The car was crowded, and the old man was compelled to hold on the side of the car at the front platform. At First and Alameda streets he was thrown from the meda streets he was thrown from the car in rounding a curve, and in some in-explicable manner fell between the car and the dummy on the tract, the wheels of the car passing over his body, killing him almost instantly. There was some differences of opinion as to where the old man was standing at the time the accident occurred, but it was shown that there was room enough inside the car for him to stand, had he been so dis-posed, and the jury returned a verdict exonerating the cable employes from

all blame. The son of the deceased came up yeserday and took charge of the remains which will be removed to Downey for

burial. CHAMBER OF COMMERCE.

any Wants Yet to Be Supplied-A New Lot Purchased to Increase the Size of the Playground—The President's Address.

The Orphan's Home Board of Managers held their twelfth annual meeting esterday afternoon at the Home, cordies congregated in the double parlors and the business session was disturbed by neither childish footfall nor shout for all of the 140 orphans are enjoying life at Redondo Beach, where in commodious barracks erected for them by the Redondo Beach Company they are laying in a stock of health and strength for the future. They are attended by six employes of the Home, the entire company having been taken there free company having been taken there free of charge over the Santa Fé line last Wednesday. The cable railway company transported them from the Home to the station gratis, and the Los Angeles Transfer Company showed its good will by transferring the baggage to the depot. Notwithstanding the fact that every one seems so kindly disposed toward the orphans, a Times reporter who made the rounds of the Home yesterday discovered some glaring wants which ought to be supplied. Among them is a supply of bedsteads to ing wants which ought to be supplied. Among them is a supply of bedsteads to take the place of the old wooden cots which are still in use in a number of the dormitories. Five dozen new iron bedsteads were donated during the year and as many more are needed. Compared with the Catholic Orphan Asylum on Boyle Heights this Protestant institution is lacking in numberless conveniences which should be provided for the comfort of the little wards. The playroom is too small, there is not a sufficient number of bathtubs, carpets are lacking and rugs to tubs, carpets are lacking and rugs to place in front of the beds would be most acceptable. A chapel has been ar-aranged in one of the rooms for devo-tional services and for a reading-room.

It would seem that these little ones, who are guilty of no crime save orphan-age, should be made as comfortable at least as are the boys at the Whittier Reform school, and the difference in the surroundings is so great that one can-not possibly visit the two institutions not possibly visit the two institutions without drawing at least a mental comparison. A new lot has been purchased during the past year, and paid for, at \$600, which gives the children a larger playground, a want which has been felt for a long time. There are nine employés at the home, consisting of a matron, an assistant matron, a seamstress, a nurse, a hospital nurse, a dining-room girl, a cook, a laundress and a janitor. Their combined salaries amount to \$3275. It would be impossible to carry on the work of the home with this small corps of help were it not for the fact that the ladies of the board give a large part of their time to the interests of the institution. Mrs. Parcells, chairman of the Household Committee, oversees the buying of all provisions and the hiring of help; Mrs. Baker looks after the purchase of clothing; Mrs. Fitch attends to the matter of fuel; the secretary does all the clerical work, and the Sick Committee are always in readiness to lend a hand in time of sickness. But four deaths were reported for the past year.

There have been sixty-three children admitted to the home in the last twelve months, fifteen girls and forty-nine boys. Of this number four were whole orphans and sixty half orphans. The number indentured was eight, taken from the home by parents and relatives, eight. All destitute children are admitted to the home absolutely free of charge. The parent of a half orphan 15, at 8 o'clock. As this will be an important meeting, a general attendance is very much desired.

The by-laws presented at the last meeting by the Committee on Laws and Legislation have been fully considered by the board of directors. These by-laws propose radical changes in the organization of the chamber, and at, this meeting, before final adoption, should receive the scrutiny and suggestion of meeting, before man adoption, the druggists who have furnished lingly, the druggists who have furnished medicines free of charge, the ladies medicines free of charge, the ladies aid societies of many churches, not only in the city, but in adjoining towns, for the past three years have never refused to publish notices or appeals made in behalf of the home free of charge, though many of them properly came un-der the head of advertisements. She also expressed regret at the loss of the efficient matron, Miss Moss, who has served the interests of the home so long and so faithfully, and the resignation of the recording secretary, Mrs. Dr.

Receipts, however, to far have not been sufficient to fix prices. to far have not been sufficient to fix prices. The offerings thus far have been generally taken at from 9c. to 11c. There is every indication that prices this season will be consideably higher than were obtained for last year's crop. Advices from the Eastern markets indicate that supplies are fairly well cleaned up there and there will be a good demand for the California product.

A New York dispatch says: "Georgia kxpects to market fully 200 cars of peaches. Hunterdon county, N. J., estimates a yield of not more than 250,000 baskets, 20 per cent. below that of last fear. This is favorable for late Californias. It is reported that Almeria grapes, the only important competitor of California, though of large crop, are badly mildewed, and our receipts are not likely to exceed the moderate ones of last season."

THE Anarchists in Pennsylvania, wh ran up the red flag on the Fourth, and subsequently saw it torn down and replaced by the Stars and Stripes, have ome to the conclusion that this is a great importance to the citizens of Los free country only to a certain extent. But it is free enough to satisfy lawabiding citizens.

THE annual statement of the Farmers' and Merchants' Bank, published today, makes an unusually prosperous showing. The total net profits from June 1891, to June 30, 1892, were \$176,360,62. Of this \$75,000 has been paid out in dividends, leaving \$101.860.62 to be added to the surplus and undivided profits.

THE population of France continues ne. The death rate for 1890 was in excess of the birth rate, the excess of deaths over births being 38,000. The root of the evil is stated to be the small family. The average number of children to the French, family is only one and one-half, and this average is said to be diminishing, whereas the English average is 3.8, and the average of Europe is more than three.

THE adoption of the compromise sewe proposition, even at the expense of postponing the bond election sixty days, is probably a good thing for the city. It will give us an outlet at the ocean through an ample tract of land owned by the municipality, and other advantages will accrue by reason of the better reate and the amicable under standing all the way round. It is bet ter to wait a little longer for the outfall and get everything right when we do get it.

CYRUS W. FIELD, one of the foremost of American financiers, whose name will be celebrated in history for his achievement in laving the first Atlantic cable, died at his home in New York yesterday. It is a matter of great regret that the life of one so successful and so beneficial to his age should have been clouded at its close by misfortune and chagrin. The wrong-doing and dis astrous financial collapse of his son gave to Cyrus W. Field his death blow Mr. Field was born at Stockbridge, Mass., November 30, 1819, and was therefore nearly 73 years old.

A SIGNIFICANT incident in the meeting of the strikers at Homestead last Monday, which American citizens will make a note of, was the fact that "after arrangements had been consummated by a unanimous vote Frank Fugula made a speech in his own language explaining all that had been done." Evidently the contingent of Slavs present (who do not understand "United States,") voted unanimously first and got an un derstanding of the matter afterward. Men of this stamp furnish a reliable backing for professional labor agitators, but they are not the best of American citizens. They don't quite rise to the American idea.

We are informed by grapevine tele graph that some parties who do not favor the aspirations of Hon. H. T. Hazard for the Republican Lomination for Congressman are preparing to print a circular and flood the town with it the day before the Republican convention, charging him with a grave irregularity They propose to set forth in words, figures, comas, exclamation points, etc. the amount of money he will have drawn from the city treasury during the four years of his incumbency as Mayor of Los Angeles. will probably reverse the case. But

THE conclusion of the strikers of Homestead to make a virtue of necessity and receive the State militia (6000 strong) with bands of music and other demonstrations of welcome is well enough in its way, and will afford relief country in the assurance that there is not to be a present continuance of bloodshed and disorder. But this conversion of the recent defiers of law s not even skin deep-it is a mere sub mission to superior force for the time being and no surrender of their assumed right to resort to outlawry again as soon as chance offers. If they had chosen to recognize the law like good citizens, they could have done so by re specting the orders of the sheriff some time ago. One man is as good as 10,-000 when it comes to a matter of peaceable submission. The recent conference between Weihe, of the Amalga mated Association, and the sheriff shows the attitude of the strikers Weihe offered to turn over the Home pages) will be sent by us to any address in the United States for \$1.50, cash in adstead works to anybody whom the sheriff might select except the Pinkertons 'That is all very well," said the sheriff,

"but will you permit me to turn over the plant to the company and let them bring whom they please there to work? "That we certainly will not do," replied Weihe. "The men would not permit that." Again, this representative of the trade organization is reported as saying: "They can't keep the militia here always. Let the works try to start up with non-union men and see what they will get." We are not aware that there is any statute of the State of Pennsylvania obliging iron manufacturers to employ members of the Amalgamated Association and no others. Any attempt to compel such a self-const tuted regulation by force is in defiance of law and an infringement of vested rights. The strikers are, in a measure, cowed, but they are not brought to reason. They have sensibly concluded that they cannot afford to longer resist with violence the authority of the State, and after that the authority of the United States, but they are still very far from conceding an honest and willing obedi-

ence to the laws. THE early construction of the Nicaagua Canal by Government aid, with proper safeguards and to be under Government control, would undoubtedly be very beneficial to all sections of this country, but to none as much as Southern California. The Sixth Congress District could send no man to represent t who would be likely to exert as much influence in accomplishing this object as Hon. S. O. Houghton. Los Angeles should obtain liberal appropriations at the earliest possible date to secure deep water harbor facilities sufficiently ample to accommodate the immense ommerce which the opening of the Nicaragua Canal will at once in-Who would be so likely to augurate. secure this liberal appropriation as he who secured nearly two-thirds of all the appropriations for San Pedro that have ever been made? If Col. Houghton were again sent to Congress he would know precisely how to obtain an appro priation ample to provide Los Angeles with a Government building sufficient to accommodate all the Federal offices here. Los Angeles county would make no mistake in putting forth its best ef fort to secure the nomination of Hon S. O. Houghton for its representative in Congress.

A Cyclone Capsizes a Steamer on an Illinois Lake.

Cabin-Nine Bodies Recovered-The Death List May Reach as High as Eighteen.

PEORIA (Ill.,) July 12.—[By the Associated Press.] Peorla Lake this even ing was the scene of a horrible catas trophe. A cyclone struck the water about 10:30 and capsized the excursion steamer Frankie Folsom with a party from Pekin. About forty persons were on board. All but eighteen have been accounted for. It is believed fully a dozen perished. No one escaped from the cabin. The work of bringing the dead ashore is now in progress.

Peoria (Ill.) July 13.—Up to 2 o'clock PEORIA (Ill.) July 13.—Up to 2 o'clock this morning nine bodies have been recovered from the wreck of the Franki folsom and the search continues.

list of casualties so far is as follows: Mrs. Frankie Fisher and daughter, Cora, William Wiles, Maud Ford and two unidentified bodies, one that of a man and the other a woman. It is be ieved that at least six more are in the water, but this cannot be verified. The river banks present a terrible cene. Grief-stricken citizens of Pekin are there in numbers seeking missing

relatives and friends. Capt. Loesch, of the boat, gives the following story of the accident: He brought the party, about forty in number, up from Pelsin to see the Last Days of Pompeit. After the exhibition they pulled out, and when in the middle of the river the storm struck them in all its fury with scarcely a sign of warning. He attempted to head the steamer toward the shore, and, as he did so, a terriffic gust of wind struck the craft and keeled

it over in nineteen feet of water. The scene which followed beggars description. Men and women were thrown into the water, but the larger part of them managed to reach
the upper guard and cling there until
help reached them. Their cries of distress were heard from the shore and
in spite of the heavy wind a number of
skiffs went to their assistance and gradually they were brought to the shore.

Until the list of missing comes from Pekin the exact number of deaths cannot be told. The persons drowned were nearly all in the cabin when the boat tipped over. There was no escape for them and every one perished. The survivors all tell most thrilling tales of the disaster and there were many narrow escapes. Men and women were pulled into the boat, half drowned, and it is feared some of them will die from excitement and exposure.

citement and exposure.

Eam Sutton, Circuit Clerk of Tazewell county, was in the second boat off from the wreck. He saved his wife by diving down into the cabin of the sunken boat. He brought her up in a senseless condition, but it is thought she will live. He said the accident was kept the boat headed for the willows on the opposite bank there would have been no danger of capsizing. When the storm struck the boat there was the wildest scene imaginable. Men and women huddled to the side from the shore and when the boat careened over many were swept off. The vessel settled rapidly to the bottom of the river and every gust of the tor-nado would sweep some poor unfortu-nate off in the water. The wind was blowing directly off shore, but the screams of the women and hoarse shouts of the men could be heard above

Sutton says he is sure the following were drowned, for he saw their lifeless were drowned, for he saw their lifeless bodies floating in the water of the cabin: Misses Fanny and Anna Poebel, William Ripberger, Mrs. William Wiles, John Ahrends, Miss Mary, Floth, Mrs. Fred Fisher, Miss Cora Fisher, Mrs. Duisdeker, Mrs. Beebe, and two girls unknown. Those on the boat who have been brought to the shore 'are sure at least eighteen person were drowned. So far there have been five bodies rescued. Alderman Goloon of Pekin lost his little son and is raving crazy. He had to be removed from where the work of rescue is going on by the police. As soon as the news of the wreck reached the police station every man on the force was ordered to the scene. Mayor Warner ordered all backs in the city to the scene and hacks in the city to the scene, and as people are brought to the shore they

are taken to the city hall where they are made comfortable.

The scene at the river bank is pitiful in the extreme. Friends of those or the boat stand out in the storm await ing the return of the missing.

When the storm broke the lake and river were filled with every description of boat. Over 200 pleasure boats were at the yards, and so far only ninety-six of them have been accounted Several small boats have been

down the river, and there is but little doubt that their occupants found graves in the angry waters.

A boatman has just come in with six pairs of oars he found floating. As there was no trace of the boats to which they belonged it is thought the occupants were drowned.

There are now eight bodies at the morgue, taken off the steamer Folsom.

Five are those of women and only three

London, July 12.—[By Cable and Associated Press.] William Waldorf Astor is not dead after all. In spite of the fact that a notice of his death was posted on the door of the office of the Astor estate in New York, and the publication in New York morning papers of a formal death notice furnished by the sexton of Trinity Chapel by authority of the man in charge of the Astor office acting on a cablegram from London, generations of millionaires is still alive. In response to repeated and persistent telegrams asserting that the head of the house of Astor was dead, a representative of the Associated Press made three visits to to Lansdowne House, Astor's London residence, between a early hour this morning and noon, elicearly nour this morning and noon, ence-iting as many denials of Astor's demise. Palacio Heard From-Rebels and Govern-ment Troops Fighting. CARACAS (Venezuela,) July 12.— By Cable and Associated Press. Ex-Dictator Palacio has issued manifesto from Fort Detrance, Martinique, to which he went direct from La Guayra. It scores his military leaders, holding them responsible for his misfortunes.

There was intense excitement in Caracas June 30 caused by reports of a bloody battle raging in the vicinity of El Guayra, where Guerra and Vega with crespo's advance column were strongly entrenched. All roads leading into the capital were lined with wagons bringing the wounded to the hospitals. The number of these was so great as to fill all the hospitals. There was terrific slaughter of government troops. All business was suspended in Caracas. At night Gen. Mendoza, commanding the left wing of the government army, telegraphed to the Caracas authorities, claiming a glorious victory, alleging that the revolutionists were in full flight. In the battle the government entrenched. All roads leading into the flight. In the battle the government generals, Montverde, Eiaz and Zamosa, were killed. The commander of the right wing telegraphed into Caracas that his men had occupied important cabel interachments without opposition. rebel intrenchments without opposition; that the enemy had fled to El Guayra,

which they were fortifying.

The rebels were repulsed after several hours of hard fighting near Acarigua June 27. The fight was renewed at Araus, when the government troops were defeated with tremendous slaugh-

ciated Press.] Preparations for the battle royal, expected tomorrow when an effort will be made to bring the Senate Silver Bill before the House for action, were made today. The anti-silver men make the best show of real confi-dence, although the details of the campaign are not made public. It may be predicted that Republicans and Democrats opposed to the passage of the bill will unite in voting against the adoption of the rale making the bill the special order for cial order for consideration tomorrow, In fact, Reed said the Republicans will vote against a special order and hope to be able to defact it with the aid of a few Democratic votes. Tracey says the few Democratic votes. Tracey says the present disposition is to allow a short time for debate before the previous question is ordered on the adoption of the special rule, for the purpose of al-lowing certain Democrats who favored free silver coinage to explain why they do not believe the rule should now be adopted and why they will vote against it. The anti-silver men attest they

The anti-silver men attest they will be able to defeat the rule by a majority of twenty, but they are taking no chances and are working hard to get out a full vote, and also have been arranging pairs for absent Republicans. The free coinage men are likewise striving to poll their full strength tomorrow. If the three Mississippi Democrats arrive, as expected, every silver Democrat will be pected, every silver Democrat will be accounted for save one, and they will get out a full vote. Privately they admit that the bill is in a very critical position, but they hope to succeed, and at any rate they intend to do their best, and then, if the rule is defeated, they

will abandon the fight.

CHICAGO, July 12.—A Washington special says: "The Silver Bill will-come before the House tomorrow. Speaker Crisp is determined that it shall be settled. Opponents of free coinage feel confident of their strength and are ready for the issue. They way and are ready for the issue. They may vote to defer consideration of the measure until next December, or, wait-ing until the free silver men have the bill just as they want it, then rally to defeat it for good and all. Caruth of Kentucky who voted for the bill before, said today that he would now oppose it at every stage and he knew of a num-ber of others who had decided upon a like change of front. He gave as a reason for changing his position the reason for changing his position the fact that his party had adopted an anti-free coinage plank at Chicago, and it was his duty either to support the party or get out of it. Republicans, with a few exceptions, will fight free coinage, and with the Democratic antis are conident of defeating the bill.

The Right-of-way Deeds.
Following are the provisions of the deeds for the sewer right-of-way and ocean front ground for disposing of the sewage:

sewage:

In consideration of \$10,000 he conveys to the city a perpetual right-of-way for construction and maintenance of a sewer. The line of the outfall is then described, giving uniform width of fitteen feet for right-of-way from Walnut avenue, Hyde Park, Los Angeles county, to the ocean. The three laterals are also minutely located in the center of the right-of-way fifteen feet wide. The right-of-way is granted for the purpose only of constructing, operating and maintaining a main sewer with threat alterals, all of which are to be constructed in a good, workmanlike manner below the surface of the ground, at a sufficient depth so as not to prevent the use of the ground for farming and other ordinary purposes. Such sewers to be properly constructed in a good, workmanlike manner below the same for the purpose of repairs and removing obstructions from the sewer, such manholes to be so constructed and closed with movable iron covers as to prevent escape of sewage an notious gases and odors except and approved.

TOU had better read our advertisement every day. We might say something cute and you would miss it. You cannot always hit the nail on the head; if you did you would not hit your finger. Did you ever take notice that when a fellow hits his finger with a hammer he always puts it in his mouth. If he is handling eggs or raw meat its all the same. It takes a little thing like this to make some people get a move on them. Things will be lively around here next week, and it will not take a hammer to make it so. The greatest sale of cloaks ever-made in this or any other country is on tap. You may expect it. It will beat our former cloak sale out of sight. We wouldn't say so if we didn't know it. There will be about a few other sales more or less, and they will all be good. It will bring you into the house because the variety will please you. All new goods. We went out of the chestnut business a year ago, and since then the trade has been doubling up. Most popular house today. You know we take goods back and refund money. This is our new way. It is the squarest way to do business. That is why we do it. Next week will be the largest in the house for four years. We have the goods and the prices that will draw the crowd. You know how it has been here lately. It is growing in yolume. Better values, good goods, new styles, and at prices we know are right. No one else attempts to meet them. Full particulars will be given as soon as we get the iron hot enough. Part of the goods are here and part on the way, and the best of all we will have plenty to go around. Clerks have the same advantage in getting hold of bargains as you do. We treat them fairly and they treat us ditto. The clerks are kind of a telephone. We treat them right and they treat you right. Largest growth ever made by any business in this city.

Conflicting Stories as to the Killing of Mrs. McGoldrick.

The Testimony all in and the Case Partially Argued.

Suit to Quiet Title to Land in the Cadler que Tract-Receiver Crank, of the Cable Road, Granted Permisslen to Issue Certificates.

The trial of the case against P. K. Jacoby, charged with the murder of Margaret McGoldrick at Redondo on June 4 last, was commenced before Judge Smith in Department One yester-day morning. District Attorney Me-Lachian appearing for the prosecution and C. C. Stephens, Esq., representing the defendant. The jurors selected to try the case were David Bayles, Leonard C. Clark, Henry A. Draper, W. Dockstadter, N. H. Hughes, J. B. Lawrence, Henry T. Parker, J. A. Paxton, William Rector, Charles, A. Robinson, Leonard M. Russell and D. H. Turner.

The following witnesses were called and examined for the prosecution: Dr. J. Hannon, Alexander Longmore, William Hughes, Mrs. Isabel Hughes and Charles W. Richardson. Judge Smith in Department One yester-

Charles W. Richardson.

Longmore, was the most important of
the witnesses, as he lived at Mrs. McGoldrick's house as well as the defendant.
His testimony was to the effect that the night of the shooting Jacoby re-turned to the house under the influence of liquor, about 11 30 o'clock, and after lighting a lamp went into witnesses, room. Longmore suggested that he had better go to bed, at which Jacoby had better go to bed, at white backby flew into a passion, rushed at the witness who lay on a bed, and struck him with the butt of a shotgun on the shoulder. Hearing a noise Mrs. McGoldrick came in from an adjoining room and asked Jacoby if he intended to kill he did and would kill every one in the house. She then grabbed the gun and a struggle ensued, during which the weapon was discharged and Mrs. Mc-Goldrick fell, crying out, "My God, see

weapon was usually weapon where the control of the his knees thus engaged he noticed his shotgun leaning against the bed at his side and took the precaution to lay it down behind him. Shortly afterward Mrs. McGoldrick came out of her room and into his and asked him what he was doing. He told her that he was going. doing. He told her that he was going away, and the woman picked up the gun, saying. "No, you ain't." As she did so, she stumbled against the bed and fell, the gun being discharged in some inexplicable way and wounding her in the arm. He was about three feet from her when she fell. He denied having Longmore or had any quarrel

This story is to some extent corrobo rated by an ante-mortem statement made by Mrs. McGoldrick, who asserted that the gun went off accidentally.

Both sides then closed and the matter, after being partially argued, went over until this morning. SCIT TO QUIET TITLE.

The case of Encarnacion Sanchez vs. B. F. Bragg and six others an action to quiet title to two lots in the Cadieroue tract, came up for trial before Judge Shaw in Department Five yesterday morning, Messrs, Willis and Appel and J.M. McKinley, Esq., appearing for plaintiff and Messrs. Ling and Edger-ton and Horace Bell, Esq., repsesenting the defendants.

When the case was called the lastnamed attorney asked leave of the Court to withdraw from the case, which was granted. This action, he explained, was caused by the fact that his clients, the Cotas, had refused to assist him in preparing their case because Horace Appel, Esq., had informed them that he had sold them out. Attorney Appel in-dignantly repudiated this charge, but the Court refused to hear any more of the matter, and intimated that counsel could talk it over outside. A curious complication resulted from this withdrawal. Maj. Beli being the enly one of the attorneys for the defense who was conversant with the case, but this was inally settled at the request of Attorney Ling by his being made associate counsel. The case was then proceeded with, Manuel Ceta one of the defendants being called to the stand for the plaintiff. He evinced a disposition, however, to be forgetful whenever it was convenient, until the Court threatened him with a few days' imprisonment. At the close of his testimony the case was dismissed as to the Cotas and B. F. Bragg, but was proceeded with against Mrs. Bragg and two others, Dr. Bragg and Mrs. Esperanza B. de Abila being called. At the close of their testimony the matter went over until this morning for further hearing.

News was received in this city last night of the tragic death at Santa torious characters in Ventura county Some three years ago a woman pamed Emma Craven went to Santa Paula, where she purchased a small house and ot and opened a house of prostitution. The place soon became notorious, and about two years ago an effort was made about two years ago an effort was made by the citizens there to have the place closed and its inmates driven out of the town. Santa Paula is not incorpo-rated, and there was no law by which the woman could be reached, so she es-caped punishment. After this incident the woman threw on all restraint and the place went from bad to worse, until the people became aroused and another determined effort was made to close the den of infamy. As a result of the agitation, mass-meetings were held, funds were subscribed to carry on the litigation and the fight was commenced. agitation, mass-meetings were held, funds were subscribed to carry on the litigation and the fight was commenced. A committee of citizens visited Los Angeles and engaged the set vices of Detective Insley to work up the case and secure evidence on which the woman could be convicted. This stap was not taken, however, until everly other means had been exhausted, the citizens even offering to buy the woman's property at any price she might name, which proposition she refused and defied the people to do their worst.

Insley then took the case and soom secured evidence sufficient to secure the artest of the woman on charges of vagrancy and selling liquor without a license. The trial on the first charge, vagrancy, was had Friday and the woman was convicted and sentenced to thirty days' imprisonment in jail. She was removed to Ventura, but yesterday was taken back to Santa Paula for trial on the research of the research.

was taken back to Santa Paula for trial on the second charge. When the case was called at 1 o'clock the woman's attorney asked for a change of venue on the ground that his client could not get justice in Santa Paula. This was granted and the case was transferred to the justice's court at Nordhoff. The woman appeared quite elated over this move, and, as she left the courtroom, asked the officer to allow her togo over to her house for a few was taken back to Santa Paula for trial her to go over to her house for a fev minutes before returning to Ventura to get a few articles that she needed. The request was granted and she went into her room, the officer remaining outside. In a few minutes the officer heard a suspicious noise inside, and on entering the woman was found lying on the floor in convulsions. She merely stated that she had taken strychnine and in a few minutes was dead.

No one about Santa Paula seems to know anything about the woman, and it is not known what disposition will be made of her property. It is safe to say, however, that the dive which so long disgraced the town will not be re-

SPRING AND SUMMER The Columbia Colony In Southern California.

6520 ACRES

Offered by the Southern California Land Company, 230 North Main Street, adjoining First Nettional Bank.

1630 Shares at \$100 Each, In Installm nts of \$5 00 per Month Without Interest.

Not a Land Distribution, but An Investment of Money! Each share will earn 5 per cent. per month on each \$100 for five years, and has the best real estate security.

Sixteen hundred and thirty shares at \$100 each will buy the Fowler Ranch of 6520 acre with the present improvements and the prospective improvements to be made by the present owners at a cost to them of \$30,000. This spiendid property is situated on the border line of Tulare and Kern counties, four miles west of the Valley Road of the Southern Pacific Raliroad, and four miles north of the branch line to the oil wells and twelve miles west of the present line to San Francisco. A survey of the Santa Fe line has been made through the western portion of this tract.

We are soliciting subscriptions for shares in an incorporation to be organized for the purpose of buying from the present owners the Fowler Ench. containing 602) acres, situate on the border line of Tulare and Kern counties, for \$5 per acre, with its present improvements and with \$80,000 of improvements to be mayle by the owners and included in the price of \$5 per acre, as stated. This \$8 rat a land distribution, but an investment of money, with return of money and profits, \$v \text{dividing the tract into \$40 acres subdivis-ons, and after the improvements are made. \$st \text{ling at a future period at \$100 or more per acre. There will be lost shares in the corporation at \$100 each, to be paid for in \$5 monthly installments without interest. On the sixth payment the subscribers will incorporate, will elect their officers, and the trustee they may appoint will receive a deed for \$600 acres, in escrow, clear of all incumbrances, with the certificate of title attached of the Abstract and Title Insurance Company of Los Angeleit, to be delivered to the corporation when the purchase money is paid. The \$30,000 proposed improvements guaranteed by a deposit in bank of that amount, to be paid out to the contractors on certified vouchers as they progress with the work.

Description of the Property.

The land is a rich, black loam, and is known as the Fowler Ranch. It was purchased many years ago by the late Senator Tom Fowler of Tularce, when he had the opportunity of obtaining the cream of Tulare and Kern counties. It is in the center of the artesian, fruit and alfaifa belt; has upon it now a sample artesian well, dowing \$50,000 gallons, and is in the immediate vicinity of the largest flowing wells in the State.

The Present Price and What the Investue out Will Pay.

The Present Price and What the Investment Will Pay.

The low rate of the purchase, 25 per acre, with all the present and the projected imprevements herein recited, made and paid for by the present owners, at a cost of \$30,000, enables us to guarantee at the lowest rate of sale in the future, say \$100 per acre within a eyears, an interest of 5 per cent a month on each share of \$100 from the date of subscription.

This tract has one section already fenced, a colony house, the present flowing well large reservoir, etc. The improvements to be made by the present owners will consist of an irrigating canal of 12 miles, six more artesian wells as feeders, survey and division into 40-acre tracts, survey and laying out of the town of Colonna, broad avenues through the entire property planted with trees, etc. etc.

The fall of the land is sumicient for drainage and admirably adapted for the conveyance of water by canal, as there is nothing to obstruct its course.

How the 5 per cent. per Month on Each \$100 is to be Eurned for the Five Years.

Many well-known citizens thoroughly versed in the capa bilities of lands in Southern California double the estimate that we here set forth of \$100 per acre within five years, and assert that at the end of that time this splendid body of land, improved as proposed, with water conveyed to each tract, will command readily and quickly \$200 per acre. But we place it at the low figure named, \$100 per acre, and any larger amount that it may be sold for will increase the percentage which we claim it will earn at our figures.

This surplus would meet all expenses for the full term; salary of superintendent, taxes, expenses attending sales and any extra improvements that the trustees might deem Placed Before the Public for Investment.

The Southern California Land Company of Los Angeles now places this tract before the public and strongly recommends it for the investment of large or of small amounts. This company has conducted in the past seven years many large successful land deals in Los Angeles. Its record is without reproach, and its references include the leading citizens of Southern California. Its clients have numbered handreds of investors in the childs tract. Urmstan tract. City Center tract, etc. Its dealings have amounted to hundreds of thousands of dollars and it stands today one of the most popular firms in this section of the state.

An Interest of Five per cent. per Month Must Arrest Attention.

An investment with perfect security and earning 5 per cent. The month on each \$100 share for a term of five years from the date of the first payment of 85 must arrest the attention of every one. It will also be borne in mind that should the stockholders elect to sell at \$100 an acre within, say two years and a haif, half of the time that we here propose, their investment will net them 10 per cent. Per month for that period.

Fall Becarity.

This is not a land distribution, but an investment of money with return of money and interest. Building associations and savings banks are all founded on real estate security and pay from 5 to 8 per cent. per year. Here you have not only the best real estate security your investment also earns 5 per cent. per month, and at the same time you own your own proportion of the land, 4 acres to each share, until it is sold by your own trustees, and then you have your division of profits.

Some Facts Bearing on the Subject of Water.

A Few Points Given on Both Sides of the Question.

Where Weak People Go to Get Strong.

The Colored Republicans form a Club and Elect Officers-Personal Notes and Brevities-Local Items of Interest.

The summer season is once more at hand.
Once more the sprinkling carts run from morning to night, and once more the private consumers are instructed by the water companies at what hours of the day—or mostly night—they may sprinkle their lawns and at what hours they must not induige in any such pastime. This has happened in the face of the fact that for months past extensive operations in the way of development have been carried on at Devil's Gate, which have increased the supply, it is stated, by at least 100 inches.

Simplication for most liberal patronage.

It was understood that if the public paid for a band stand and its furnishings they were to be treated to a series of free concerts. Now it is asked that a public fund be raised to have the concerts continued after one has been given. How about this?

Tuesday night was an occasion of special interest to the members of Pasadena Enterest to the members of Pasadena supply, it is stated, by at least 100 inches. Simultaneously with the restrictions as to the amount of water to be used comes an increase in rates of about 20 per cent. It is hardly surprising, then, that a good many people are mad. They are mad for two

is hardly surprising, then, that a good many people are mad. They are mad for two reasons: first because they were led to believe that they would have all the water they wanted this summer, and second, because they did not anticipate that an increase in the supply would be accompanied by a corresponding raise in rates.

As was said in the case of the Terminal road, there are two sides to the question. A director of one of the water companies was spoken to on the subject yesterday and gave in substance the following explanation: "Although the supply has been largely increased this spring, it has no more than kept pace with the growth of the town. We need much more water this summer than last and it is lucky that we are so well prepared to meet the demand. Consumers are not limited to certain hours for irrigating purposes or for sprinking their lawns because a certain amount of pressure must be maintained for filling the sprinking carts from the fire-plugs. Then again, the consumers on the lowest level have the advantage in the matter of pressure, and it is impossible for a man on higher ground at times to get all the water he wants, when his neighbor below him is running at full pressure. This is a misfortune that no water company can rectify."

When questioned as to the future supply of Pasadena the water man stated with emphasis: "There need be no fears whatever on that score. Both water companies have united in the work of development at Devil's Gate, and no expense will be spared to push it to its gimost limit, The next step will be to built a dam at the gate proper. This will result in the formation of a mammoth natural reservoir, where during the winter an immense body of water will accumulate, which will meet all requirements the city and vicinity can make upon it for years to come, no matter how dry the season may be. There need be no worry but that Pasadena will always have all the water she can possibly use."

On the matter of the raise in rates the director called attention to the fact that great expe

colored citizens of Pasadena held a meeting Monday evening for the purpose of effecting political organization. William Prince called the meeting to order, after which he was elected permanent chairman, and Jason Wilson was made secretary pro tem. William Strothers made an informal speech, which was followed by shot addresses by Samuel Prince, James Miller, George Dansby, Charles Prince, Wilson and William Prince. The election of permanent officers was next proceeded with and resulted as follows: William Strothers, president; Samuel Prince, vice-president; Jason Wilson. secretary; George Dansby, treasurer; William Prince, George Dansby, treasurer; William Prince, George Dansby and William McNair, Committee on Constitution and By-Laws, and James Miler, Committee on Musical Programme. The meeting then adjourned until next Monday evening.

There will be a meeting of the California League magnates this afternoon, at which the Oakland-Los Angeles protested game will be decided, as Nick Young has given the opinion that Oakland has good grounds for a protest. For the good of the game it is to be hoped that the magnades will not take up the question at all. The mer fact that a portion of the outlying stands at Los Angeles projected a trifle into fair grounds should not deprive the Los Angeles team of a hard-played game, fairly and nonestly won on its merits. Thy a giving of the game to Oakland will not do that club the least bit of good, while it, may cause the defeat in the first half of the championship series of the Los Angeles; team, now holding first place by virtue of superior playing ability. It is not go do policy to play ball games in secret meetify ges of league magnates. Of course a few feople who want to see the home teamlwin our right or wrong, and who, perhaps, I ave staked money on the result, would like to have the game in question taken away from Los Angeles; but the great majority of people in this city, who care only to see good, healthy ball, do not care a rap about; ames protested by a manager who is a me et no torious stickler for technicalities. Church in this city:

The resignation of Rev. M. H. Stine, pastor of the Seventh Street Lutheran Church, is greatly regretted by his congregation and friends. During his pastorate of nine years the church membership, which was small at the time he was called here, has grown to be one of the largest in the city. Through his efforts a handsome and commodious church and parsonage have been erected. Besides attending to his pastoral duties he has established an enviable reputation as a pulpit orator and lecturer.

ARBITRATION IN COURT.

'Jayhawker" Outlines a Method of Procedure

By Which Labor Troubles Might Be Settled.

And Thinks California Should Take the Lead.

It Would Be Much Cheaper to Litigate Settle Them by Strikes.

IN THE DEN. JULY 12, 1802. I said yesterday in my argument re-

garding the division of the tariff taxcollected from consumers to protect American industries and American labor—the parties protected, cap-ital and labor have equal rights in the division of this tax, and that the law will not be perfect until it provides a legal way to determine what proportion each shall receive. This is not a matter for compromise; it is one for adjustment of rights, and the only ques-tion is, can a court be created which will be able to determine the rights of the parties! I think it possible and practical. In the great volume of business, buying and selling the general commodities of the world, the prices are fixed by agreement. When there is a disagreement, the party feeling aggreed has recourse to the courts. If the aggrieved has recourse to the courts in an additional desires the property of an individual for proper purposes and the individual fer proper purposes and the individual demands more than the corporation is willing to pay, it can in the mame of the State, bring suit to condemn the property and thus obtain a judicial determination as to the value. The same rule could be applied to the sale of labor. The employer and the employé should each have the right to be heard in a court especially created to determine what should be the compensation for any and all ness, buying and selling the general combe the compensation for any and all kinds of labor. Each and every em

ploye, singly and for himself, should have access to this tribunal.

As to whom should be employed must always remain a question to be settled by the employer, for no person has a right to force another to hire him right to force another to hire him. Such a rule would open the doors to he idle and lazy as well as the unemployed to go into court and demand situations of those already at work. But when a person is hired, and for any cause is not satisfied with the compensation which he receives, the court should be open to him to sue for an increase. When the suit is gained, he who loses should pay the costs of the adjudication.

The Downey avenue hill has been cut down and the road graded up. It will be sprinkled today, and put in good shape, when it bids fair to become one of the principal thoroughfores to Pasadena and the San Gabriel Valley.

Rev. Dr. Campbell will lecture at the adjudication.

The establishment of such courts, or

plaint.

Corporations are the creatures of the State, and are entirely under its control, so much so that even the Legislatroe, so much so that even the Legisla-ture cannot, by any species of enact-ment, deprive the people of the power to destroy them at any time or impose any regulation upon them. The United States, in creating the Interstate Commerce Commission, asserted the right of the Nation to determine what co pensation certain railways shall re-ceive; and if it has the power in that way it clearly has the power to deter-mine what shall be paid by such corporations for services rendered. And the Supreme Court of the United States has affirmed the right of the States to fix the rates of freights and fares of railways, the tolls of telegraph, gas and water companies.

There is certainly nothing in the Constitution of the State of California which prohibits the enactment ot a law authorizing a judicial determination of what wages corporations shall pay for any kind of labor. The law need not be complex—the rules of equity should govern, and all that is needed is the course of procedure in the courts.

Already numerous amateur circuses are

an organized strike to the strikers, but it is safe to assert that the cost of judicial determination of the questions involved would not amount to 1 per cent. of the cost of the strike to strikers alone, leaving out of sight the loss to the employers. ATTLING FOR BRILLIANT ETTER BARGAINS, THE ULWARK OF BUSINESS

T is folly for any business house to announce a line of wares as being worth more than the advertised price, when in fact they are not. What effect would such advertising have? When patrons call and find that what we say as worth \$1.00 is not up to the proper standard of value---

We claim to offer you better bargains for your money than any house on the American Continent. We expect no town, even at the great seaboards where merchants have no freight expense and wares are landed free at their doors.

You take no chances when trading with us. Our prices are absolutely right. No one can undersell us, and we are always ready to meet any price, be it above-board or even underhand competition. We have at various times exemplified this, and we are ready always to maintain our reputation of PROPER PRICES at

New wares are being added daily to our already complete stock. We are bettering our belonging, and every department shows finer and better grades than any heretofore handled.

In the meantime we are on the alert for trade, and kindly ask you to view our
